The Great Remedy for Gonorrhœa

GLEET, Stricture and all analagous complaints, is Dr DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union during the last 10 years. His only reason for introducing the Paste in this public manner is the alarm occasioned that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable dose of quacks.

Dr D most solemnly affirms that during his practice of forty years, the Paste has never, in one single instance failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared and the patients were unchanged, entirely cured.

If the unfortunate, instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste (as should not one so many emancipated bodies and sallow countenances as we do at the present time.

In case the Paste should fail to effect a cure in the shortest possible time, can times the price paid first will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor Dr PFEFFER DOUGLASS, at his Office No 55 Union street, Boston at $2 per box where he can be confided in, consulted on every disease incident to the human frame and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With them other of vegetable origin are combined, designed to render them more active, and consequently more immediately efficacious.

The Dock or rather a species of it now ranks as a medicinal plant second to no one of the vegetable kingdom. With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he concerted the idea of combining them which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract must be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrum usually employed in extracting its virtues, for a long time, without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofula Erysipelas, Ulcerous affections Eruptions and Mercurial diseases. Also for the numerous maladies arising from sedentary employments occupations of a harassing and fatiguing nature, intense applications, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Neuralgia, Piles Affections of the Liver Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates with which the proprietor became familiar in his practice in Havana some years since, the compound will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him, while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted at his office,

No 55 Union Street.

Dr D has been an extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M D. He has been upwards of 40 years in practice. His discreet females will receive the due particular attention. He will tell all the diseases from an examination of the eye that so astonished that Dr D has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant examination on the part of the patient of the disease with which they are afflicted. TUESDAY, MAY 16, 1848.

Whig State Convention.

The Whigs in the several Towns and Plantations in this State are requested to send Delegates to a Convention to be holden at AUGUSTA, on Wednesday, the twenty fourth day of May next.

To nominate a candidate to be supported by the Whig party for Governor for the ensuing political year

To choose two Delegates at large, to the National Whig Convention, for the nomination of candidates for the Presidency and Vice Presidency to be held at Philadelphia on the seventh day of June next

To choose two candidates for Electors at large, at the Presidential election

And to act upon any other business, that may come before the Convention

Every town and organized plantation is requested to send one Delegate—towns having one thousand inhabitants by the census of 1840 are requested to send two Delegates—towns having two thousand inhabitants are requested to send three, for each additional thousand inhabitants to send an additional Delegate

By order of the Whig State Committee

March, 3 1848

"Where are We?"

The Bangor Gazette, after giving an account of the recent meeting in Bangor which resulted in the choice of Mr Pickering as delegate, and the passage of high toned Taylor resolutions, says,—

Since the above was prepared we learn from unquestionable sources, that the delegate chosen by the above convention has openly declared, within a few days, that his first choice for the presidency is Martin Van Buren Hence, we presume the necessity for instructions by resolution twas important to secure the man of wealth, beaus the distinguished honor

If this be so it affords another evidence of the progressive spirit of our Bangor friends

{Portland Advertiser

We are not a little surprised that the Portland Advertiser should thus quote the Liberty party paper in this city against the Whigs here, and that it should so ungraciously insinuate a want of correct zeal in the spirit of the Whigs of Bangor

Now so far as any thing in the above is designed or calculated to give the impression that Mr. Pickering prefers any man for the presidency to Gen Zachary Taylor, we pronounce it, from the best authority, utterly and totally false Mr Pickering has for a year past been of the opinion that Gen Taylor is the best candidate which the Whigs can nominate He has expressed this opinion openly on all occasions Gen Taylor is, and for a year past has been his first choice for the presidency — He declared this openly to those who wished to offer his name to the District Convention as a delegate to the National Convention It was on account of the preference that his name was first brought forward, and it is downright folly for any one to pretend that the resolutions passed by the Convention were for the purpose of controlling his action Those resolutions were passed in appreciation of a course which it was well known he was sources of pleasing.

We can assure the Advertiser that we do not very well relish being brought, under the necessity, through its columns, of answering and explaining the misrepresentations of the Liberty party and the Democratic papers in this city — The Advertiser ought by this time to have become sufficiently acquainted with that sort of fraud not to be duped by its false statements, and it would be well for the Advertiser not to be too willing nor too ready to take up with an evil report against its political friends, though they may prefer Gen Taylor for the presidency

☞ The Portland Advertiser is in doubt as to whom Gen Taylor refers in his letters, as his friends and calls upon us to enlighten it upon the subject We have only to say that we profess no authority to speak for Gen Taylor It seems to us however like quite a common sense view of the matter to suppose that he would not refer to locofocos as they are opposed to him in political sentiments and their leaders gave him a hard time of it in Mexico, and undertook the task of disgracing him in Congress, and failed from *no friendship* to Taylor but from the great brilliancy of his achievements and the sterling worth of his character.

By a necessity then, as well as by the affinities of opinion Gen Taylor must find his friends among the Whigs of the country

Now as we understand the matter Gen Taylor will not of himself withdraw his name as a candidate unless such be the desire of his friends If they, as they undoubtedly will, offer his name to the Whig National Convention they will of course agree that in case he does not obtain the nomination that their influence shall be given for the success of the nominee It is possible, indeed it would be strange were it otherwise, that there are some persons in favor of Gen Taylor who will support no other person, just as there are certain friends of Mr Clay who have declared that they will vote for him so long as he lives and then for his executors But these are equally exceptions to the rule

Aside from the general liberty taken by the Whigs in the support of nominees, we have no doubt that the Whigs of the country, including the friend of Gen Taylor, will give their support to the nominee of the convention

Our friend of the Advertiser seems disposed to show fight in Gen Taylor at every point — A while since the clamor was for proof that Gen Taylor was a Whig, prove that and show that he is not a fool Well that has been done square out Now it is demanded that in going into the National Convention he shall agree to abide by its decision He says that he shall not be there, but whatever his friends desire he shall comply with

Is not this all fair? But the Advertiser other takes a prolonged against Gen Taylor, induced we fear by its paying attention to the statements of locofoco and of Liberty party papers We can respect and honor the preference which the Advertiser entertains for Mr Clay, but we cannot respect our honorable opposition to do injustice to Gen Taylor, the preference of many other Whigs, and one whom they believe will bring success, and overcome the iron rule of corrupt and ruinous locofocoism, which has so long been fastened upon the country and which of not restrained will involve the country in interminable difficulties.

Shocking.

The Philadelphia Pennsylvanian relates the case of a female, in a beastly state of intoxication in that city on Friday, and rather good looking, conveyed in prison in a transportation. She had a small child with her. She belongs to an excellent family, and is a bettered drunkard.

☞ The Harmoneons will give one more of their rich and highly attractive concerts at the City Hall, this evening There will be rush "to be sure."

☞ The following article from that highly respectable paper, the "Boston Traveller" will be read with interest, as giving a somewhat minute account of the habits and character of the man now so prominently before the public

{From the Boston Traveller}

GENERAL ZACHARY TAYLOR.

Mssrs Editors —

I do not know to what estimation you hold Gen Taylor in a political point of view, and do not know a you prefer him to Mr Clay so that you would support his claims to the Presidency or consider him as in any degree qualified for that high office But I believe you would be willing to do him justice as a man Let him be as he may, he ought not to be charged with crimes and conduct of which he is not guilty Gen Taylor has rendered some service to his country He has been honored for that service His name without a knowledge at first has been associated with the Presidency of the Union He has already left the penalty which is paid for such distinction He pursues life at once be times public—all the evil he had one in this life he reaped out behind all men Acts and deeds repugnant to humanity are ascribed to him—his mild character is associated with the voice of a trumpet—the defence to life and hardly heard With your permission, I wish to say a few things in respect to Gen Taylor They may be interesting—they may do some justice to the character of a worthy man

Gen Taylor is a man of medium stature, large frame with a massive chest and shoulders, and the gait and mien bring when on the ground, he appears firmly in home back From long exposure to the climate of Florida and the far South, his complexion is almost the color of mahogany The same cause has affected his eyesight, and he has passed the light of half a long his eyes He looks, when not in conversation as if he was quizzing some one, but when engaged in conversation, his eyes sparkle, and his face lights up with intelligence He is exceedingly fascinating in social life Plain and unassuming in his appearance and manners, he reminds one of a New Hampshire farmer, who had seen much of hard toil He is distinguished for great common sense, for modesty in the utterance of his opinions and great firmness in adhering to what he conceives to be right Some years ago he was called to Washington to unravel some perplexing matters in connection with the Indian Department He displayed such profound knowledge of that whole department,—he untied the knotty questions with such dexterity, and displayed such strong common sense and practical wisdom, that a bureau was offered to him in that department, but declined

His family relations are honorable—Mrs Taylor is one of the most elegant women in the army And that is great praise, for some of the most elegant and accomplished ladies in the country are united in marriage to the officers of the army She is elegant in her person and manners, a lady of humble but decided piety, being a member of the Episcopal Church His son has recently graduated from Yale College His daughter is distinguished for accomplishments and beauty She has declined offers from many officers of the army, in obedience to the desire of her father, who does not wish to see her married to a soldier

Gen Taylor is not a profane man He has been accused of profaneness Words said to have been uttered by him on the field of battle, have gone through he Union But no one who knows Gen Taylor believes such a report — Men who have been with him in scenes the most trying, under circumstances the most provoking, never heard him utter an oath, he retains from principle

Gen Taylor was two years old as the commander of 1600 men, many of whom were among the worst of the race, in that fort, swearing was as common as plumes, the very moral sense seemed to demand an oath as a test of a gentleman The Chaplain who was with Gen Taylor during his whole command, and saw him under circumstances of the greatest provocation, says he never heard an oath from his lips His principles and practice in this respect are known to the whole army

Gen Taylor is a strict teetotaller He conforms to the customs of the army, and keeps on his sside board such liquors as are drank in the army, but he pledges his officers only in cold water At the close of a parade, it is etiquette on the part of the officers to call at head quarters and pay respect to the Commander in chief It is etiquette on the part of the commander to allow the officers to drink his health It has been Gen Taylor's custom for years to pour out his glass of cold water, and drink the health of his staff in that alone When he assumed the command of fort Jesup, he found intemperance to be the prevailing sin Whipping, imprisonment and fines had been exhausted It was proposed to attempt to reform the men Gen Taylor gave the chaplain his warm cooperation by authority and example And all know that in the army nothing can be done without the aid of the commander A change was seen at once, and in less than two years, more than 600 reformed men marched in procession with badges and banners Some of them who joined the army because of their intemperance, obtained their discharge through Gen Taylor, and returned home to their families sober men — Some of them are in good business in Boston at this time

Gen Taylor is a friend to the Sabbath and to public worship You cannot judge men severely who are in the hands of committees, as Gen Taylor was at New Orleans a few months ago By such a rule J Q Adams, Mr Webster, and others, must be set down as enemies to the Sabbath A single act, over which, as public men, they had no control, must weigh more than a long life It is a common thing for officers in the army to take exercise on the Sabbath by walking or riding after public worship During the whole time he was at fort Jesup the chaplain says he never saw Gen Taylor riding for exercise, nor so much as walking before his quarters He regarded the Sabbath as essential to good order and morals, and he throws the force of his example fully in its favor He was regular and devout at public worship When ever the chaplain preached, whoever else was absent, Gen Taylor was in his place

In politics Gen Taylor is a Whig, so he has ever been regarded The army is no place to disguise a man's morals—his politics or his religion A thousand or a score hundred men confined for years in a small fort, will learn each other's opinions Open and decided, but moderate Gen Taylor has always been known as a Whig, some of his staff were violent politicians, Gen Twiggs for example But up on a log, or on a camp stool, the politics of the country have been discussed by General Taylor and his officers Both Democrats and Whigs have regarded him as a Whig The fact that he bore a commission would at once have been disputed as his position in politics

American Bible Society—Remarks of Rev. Dr. Pomroy.

NEW YORK, May 11.

The American Bible Society held its 32d Anniversary this forenoon at the Broadway Tabernacle

After the reading of the Scriptures by Rev Dr Stone of Brooklyn, the Hon Theodore Frelinghuysen, President of the Society made an able address

From he Managers Report, read by the Secretary Dr Brigham, it appeared that 118 new auxiliaries had been added during the year, in six new Life Directors, and 751 new Life Members

The receipts for the year had been $224,377 18, and there had been distributed 555 068 Bibles and testaments; making a total, since the formation of the Society, of 5,700,095 copies — The Society, besides home circulation, has the past year made liberal grants of Bibles and Testaments for the Army, the Navy, for Oregon, Mexico and the West Indies, and grants of money for distributing the Scriptures in France, Syria, Persia, Switzerland, India, and from various Mission stations of different denominations throughout the world

After the report, interesting addresses, occupying about three hours, characterized in some instances by brilliant eloquent wit, as well as deep toned solemnity were made by Rev Dr Ferris of New York, Rev J B Sargeant of Baltimore, J McMurray Esq Agent of the British Bible Society, S G Ports, Esq, of New Jersey, Rev Mr Kirk of Boston, Rev Dr Tyng of New York Rev S H Cobburn from Syria, Rev F Bridell Delegate from the French and Foreign Bible Society, Rev Dr King from Ireland and Rev Dr Pomroy of Bangor

Dr Pomroy, in alluding to Palestine, Syria, Asia Minor, Greece, Egypt and Arabia, which he had visited the preceding year, said the work of sending back the Bible to those countries, where it originated, and where the Savior and his Apostles prayed, and labored, and suffered for human salvation is one of particular interest There the Bible is at home Its allusions to climate, scenery, geography, productions, arts, customs, are instantly recognized The cast fits the mould The Bible, he said, was now greatly needed there, to enlighten, civilize, reform, elevate, and bless—some how it has a most marvellous power in the affairs of time as well as eternity—it constructs roads, bridges, churches,—digs through mountains and makes the lightning talk like a book —creates intelligence and enterprise—gives liberty, security, moral and religious principle It would make the magnificent slopes and valleys of Lebanon, the sweet hills and plains of Galilee, a terrestrial Paradise

It is now actually doing its work in Jerusalem on Lebanon at Smyrna, Constantinople, and other parts of the Turkish Empire You can hardly imagine he said, the delight, which converts there take in the word of God Coming up out of a wilderness of traditions and fathers and church authorities they feel, indeed as if they had reached the delectable mountains,'

Go on, then said Dr P with your work, Freight your swift ships, and send them forth to those regions, where the Gospel of Salvation was first published to man

In alluding to the present critical state of France, he said, if he had control of the government of this country, he would take the noblest ship in our navy, manned by the best officers and crew that can be found Then he would take a copy of the BIBLE prepared, in the very best style, for the occasion, put it into the hands of a Committee of seven men among the wisest and best in our land, and direct them to carry it to the French nation

They should also carry a letter somewhat like the following

The United States of America, to the Republic of France, send Christian salutations—Whereas, in the providence of God, kings and nobles have vanished from among you, and you have proclaimed yourselves a Republic be it known unto you, as our deliberate and full conviction, that nations do not live by charters and constitutions alone, but by every word that proceedeth out of the mouth of God Yours fraternally and *eternally*

Signed, TWENTY MILLIONS OF PEOPLE

On reaching France, he said this committee of seven should go in solemn procession and lay this Bible and Letter on the table of the National Assembly

A resolution was passed appropriating ten thousand dollars for immediately sending the French Bible Society to circulating the Scriptures in that country Upon which Dr Tyng said he was authorized by a liberal gentleman to pledge $1,000 for this specific object payable as soon as the resolution was secured, and he pledged himself to raise $5 000 in addition Rev Mr Kirk then pledged $100, and Rev Dr Vail of Cincinnati for himself and other friends at the West, $1 000 And it may be hoped surely that American patriots will spontaneously respond from different parts of the country to an amount, for this important object, far greater than the sum of ten thousand dollars

Stutter the Baltimore Slave Traders.

We wish to correct an error into which some of the Washington letter writers have fallen, in relation to the above ominous slave dealer It is stated that he was a member of the M E Church' This is utterly false We happen to know that he is heartily abominated and hunted by the Methodist community in Baltimore, and that his occupation has been denounced from the pulpit where he attends worship as 'piracy — We are pained to witness the avidity with which such scandalous reports are caught up and circulated by a certain portion of the press We particularly call the attention of the Boston Recorder and the Emancipator to the above — Zion's Herald

The Siamese Twins.

The Siamese Twins are living in North Carolina, as farmers, and both are married A correspondent of the Richmond papers, who has recently visited their home, writes some interesting details in relation to their domestic life

The twins can chop wood remarkably fast, four hands being on the axe at the same time — They also shoot at a mark or game with their four hands resting on the gun They drive their horses 40 miles to Wilkes, themselves and do any kind of work about the farm Mrs Eng says her husband is very kind to the negroes, and that Chang is very severe with them Mrs Eng is also better disposed than Mrs Chang, although Mrs Chang is the prettiest

Mrs Eng is very close and saving, and Mrs Chang is disposed to indulge in dress and various other expenses The twins rarely differ about dress, but often differ in their ideas of purchasing negroes or land The opinion of Eng is always the law and Chang readily acquiesces Eng does all the writing including the signing of notes and other important papers Eng is one inch taller than Chang, and Chang's wife is taller than Eng's

Some old lady in the neighborhood a few days ago, asked Eng which was the oldest? and he replied that he was just six months older than his brother

Well, says the old lady, I thought there was about as much difference, for you are pretty considerable bigger than your brother They are both good at a joke, and the old lady was incorrect They have a blacksmith shop on their farm and a shoemaker's shop also I saw a good sized frame house that they made, without any assistance, from foundation to roof At the table they both use a bench, and each has a knife and fork

I asked them if they both expected to die at the same time? and they replied that it could not be otherwise, for if the same disease did not take them off at one time, the living one would have to be separated from the dead body, and the act of separation would be his death, but their general impression is that they will both die of the same disease, and at the same time — Their affection for each other is very strong — Any of the neighbors offering an insult to the one, the other immediately resents it, and it would take a champion to cope with them in a rough and tumble fight To use an expression of their neighbors, 'they fight like cats.'

The Impertinentity of Newspapers.

The N Y Evening Post, after apologizing for an article inadvertently published in that paper, in which the editor of the Union was called by name, makes the following very just remarks

"The habit of bringing the names of the reputed editors of newspapers before the public, instead of merely naming the journals which they conduct, is one which almost inevitably leads to petty personal controversies, and hurries away what should be a contest for principles into a quarrel about the conduct and the motives of a class of individuals to whom the public have very little interest

It is, in our view, a practice that degrades the profession of a journalist, and in one of the causes why its estimation with the public falls so far below what the influence it exercises would seem to entitle it to enjoy We regard it, when we are made the subjects of it, as a disagreeable impropriety, and considering it thus we cannot countenance it when others are aimed at

A witty contemporary says that the French steamer Company has applied to the Provisional Government to get up a series of revolutions for the paddle wheels of the steamships

Burial of the Seed.

TRANSLATED FROM THE GERMAN.

Now, my seed, thy grave is made,
In thy silent chamber laid,
Thou mayst slumber lightly,
May the sun his radiance lend,
And the dews of Heaven descend
On thy pillow nightly

Couldst thou speak, thou gentle one—
Couldst thou feel what I have done—
Thou wouldst whisper weeping,
Ah, green earth and bright blue skies
Never more may greet my eyes,
All is darkness sleeping

Yet sleep on thou seedling dear,
Sweetly sleep, in a dream of fear,
Soon from slumber waking,
Once again shall thou behold
Morning sunlight as bright as gold,
O'er the green earth breaking

Let last must sink like thee,
Hands of love shall bury me,
Heaping cold earth over me,
But when God from yonder skies
Bids the slain being dead arise,
May I make to glory!

USE THE PROPER MEANS—If you wish to be successful in any undertaking, you must always use the proper means? Therefore, if you have a Cough, use JAYNES EXPECTORANT, and be cured for it is the proper means Have you Asthma or Difficulty of Breathing then the only efficient means to cure you is to use *Jayne's Expectorant* which will immediately overcome the spasm which contracts the diameter of the wind tubes, and loosens and loosens up the mucus which clogs them up, and thus removes every obstruction to a free respiration, while at the same time all inflammation is subdued, and a cure is certain to be effected — Have you Bronchitis or tickling of Throat Pleurisy, or in fact any PULMONARY AFFECTION then use *Jayne's Expectorant* and relief is certain and you will find that you have used the proper means

☞ FEMALE BEAUTY—CULPABLE NEGLECT It has been observed by sisters from all other countries, as well as by persons of this, a universal taste in this, that in no country is there a larger share of female beauty and excellence than in this city Yet, while the slave bitter, dress-maker and milliner, are engaged in adorning nature's best gift to man? one part appears almost totally neglected—THE HAIR How frequently do the ravages of disease lay waste the delicate form of the fair and beautiful, and though restored again to health, yet those flowing locks which once adorned their beauty fall off and never again return in their original beauty. It is inconceivable how any person, much especially a lady, can wantonly so much neglect on this point, when a "NEVER FAILING REMEDY" can be obtained by purchasing Dr JAYNE'S HAIR TONIC, which will perfectly restore this only neglected part of female ornament

What is a dollar or two to complete the crowning point of female beauty.

ANOTHER IMPORTANT LETTER FROM GEORGIA READ IT

We are daily receiving testimony like the following, from the North, South East and West

Messrs. Rose & Ware,—Gentlemen I was afflicted with Asthma for fourteen years and had tried every remedy in the country, I had also been to several physicians and found no relief whatever I was afflicted at times so severely that the blood would gush from my nose and my breathing was difficult. Indeed the disease had gained so much on me that I despaired of ever getting well when I chanced to get a bottle of "WISTAR'S BALSAM OF WILD CHERRY," which offerted a perfect cure, and I now consider myself perfectly sound — This can be proved by numbers of men in Franklin county and vicinity, and I think it my duty to let it be known.

Strippings and Molasses.

We see by his Family Physician that Dr A Anger Mann is again at his post, in the Editorial chair, at Booth Neckgewerk The Doctor's paper appears very finely, and is filled with bacquaint notions on medicine, &c., indicating a good degree of prosperity and thrift The farmers up in Somerset undoubtedly keep very fat cows, so as to supply the Doctor with the richest of Strippings. Wonder when the Doctor intends to visit our city again! We believe his medicine is working favorably among his patients in this section.

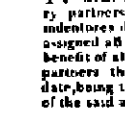
Important to Owners of Horses!
Dillow's Celebrated
HEAVE CURE!!!



Which has been cured with such astonishing effect in France and England for the last twenty years is now introduced to the notice of the public of the United States. More than
2000 cases of Heaves,
2500 cases of Chronic Coughs and Colds,
1000 cases of Catarrh and Nasal Gleet,
1500 cases of Affection of Bronchial Tubes and Glands
500 cases of Thick and Broken Wind, and
800 cases of inflammation of the lungs,
Have been cured by this extraordinary remedy since its introduction in the United States. The following is one of the hundreds of certificates in our possession, proving its Universal efficacy

NEW SCOTLAND, Albany Co N Y
February 17th 1845

Messrs Ford & Grant Gentlemen—I hereby transmit to you my certificate, for the benefit of those who may have horses similarly affected

I, hereby certify that one of my best horses is by the spring of 1843 became afflicted with the heaves in the most aggravated form—which I allowed to run on for three and four months, without doing anything for him. Having heard of the unparalleled celebrity of Dillow's Heave Cure I purchased three pounds of it, gave it to him, and entirely removed the disease. He is at this time to the present he has been in a perfectly sound condition

JAMES M WILLIAMS

UNIVERSAL CONDITION MEDICINE
Read the testimony of an eminent Editor Forever

BOSTON, January 20 1848

Messrs Ford & Grant Gentlemen—At the request on your Agents here I send you my opinion of your celebrated Dillow's Heave Cure. As an *Universal Condition Medicine*, as well as a sure cure for the Heaves and all diseases arising from an affection of the lungs, pleural tubes, pericardium and mucous membrane and also from its general and alterative properties I recommend it to be the best medicine extant, for cases of Fancy, Sucklings, Colts or Founders, Dropsy of the Skin and Chest, Foxes Plenitude, Jaundice, Hide Bound, Inflammation of the Kidneys and Mange. I consider it to be a vegetable compound which operates upon the animal system in the same manner that Yellow Dock and Sarsaparilla operates upon the human system. I should call the attention of the horse owning public to the fact that nine tenths of the above diseases are contracted through neglect during the Moulting Season or time of changing the hair which takes place during the total inclemency season in the whole year, at which time if the horse is exposed and neglected, the pores of the skin close up and the circulation of the fluids cease, it left in that condition, Dropsy in some form must ensue. It is at this time that I consider your *Invaluable Powder* indispensable, as it operates upon the pores and fluids of the skin, and causes the old hair to fall off in due time making way for the new and imparts to it a fine and glossy appearance

THOMAS JONES, Farrier,
No 10 Ash street.

CAUTION—The astonishing success of Dillow's Heave Cure for the last two years, in the United States, has induced several persons to imitate and counterfeit it, and they even go so far as to caution the public against it and endeavor thereby to palm off their nostrums as the only genuine article. We declare that "*Dillow's Heave Cure*" is the first article of the kind ever introduced in the United States and we hereby offer the sum of *One Thousand Dollars* to any person, or persons who will prove to the contrary. Consequently all others must be imitators

Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Ralph

DEAR SIR—I have, myself, almost no occasion for your inestimable Pills. I have used them any six years on occasion dictated, still I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach From habitual costiveness, and the winding of nauseous and slimy stools I am completely relieved The multifarious symptoms of Dyspepsia, with which I was once too well acquainted, have so entirely passed away, that I hardly know what they were Any one you can make of this, or a more full development of my case, is at your service

Except in an obstetric case your book (Family Physician) and Pills have been the only physician in my house for six years

There are many of my friends around, and more and more, who call for your Pills as a family medicine, and for chronic cases. Yours truly,
Horatio Waldo

Important Letter.

Messrs Curtis & Perkins.

Dear Sirs—I herewith enclose you a few lines relative to your "Downs Elixer" which, for the benefit of the suffering, if you think worthy you are at liberty to make public About a year and a half ago my mother became sick, so that in a short time we began greatly to fear for her life Her symptoms were, bad cough, pain in the side and stomach, night sweats, and other premonitory signs of pulmonary consumption We consulted our best physicians, who gave her little or no relief, and finally pronounced her quite incurable consumption She continued to become weaker, and the symptoms more confirmed

About this time, at the suggestion of a friend, we concluded to try Downs' Elixer Having procured a bottle from your agent (S R Byram, of Eastport) she commenced taking it At first it seemed only to mitigate the severity of the symptoms, but in a short time her health began evidently to improve. It cured her cough, relieved her night sweats, and greatly improved the tone of the whole system—After having continued its use most of the time for nearly a year she calls herself cured She is now able to go about the house and superintend affairs as usual Under God we believe that to Downs' Elixer, alone, she owes the preservation of her life, and the restoration of former strength and energy We have also used it in our family in other cases for which it is recommended in the pamphlets, with universal success Yours truly,

(Signed) SWAIN P NORDSTROM

The above is only one of a thousand similar letters which we are constantly receiving, from all parts of the country, almost daily

DOWNS' ELIXER is unquestionably the best article known for the cure of *COUGHS, COLDS* and *CONSUMPTION* It is more certain to give relief in all cases of *ASTHMA*—often a perfect cure—than any thing hitherto offered to the public

In cases of *WHOOPING COUGH* it needs only to be tried to give it preference over all other remedies It immediately breaks up the cough, and renders a more playing thing what is otherwise a scourge and terror For the *CROUP* it is a positive cure We speak with confidence, for it has never failed and we believe never will, when used according to directions

The great beauty and superiority of this Sarsaparilla over all other medicines, which it eradicates the seeds it invigorates the body It is one of the very best Fall and Winter medicines ever known it not only purifies the whole system and strengthens the person, but it creates new pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success It has performed within the past two years more than 35 000 cures of severe cases of disease, at least 20 000 of those were considered incurable

More than 3000 cases of Chronic Rheumatism,
9000 cases of Dyspepsia,

and thousands of cases of diseases of the blood, viz—Ulcers, erysipelas, salt rheum, pimples on the face, &c, together with many rare cases of sick headache, pain in the side and chest, spinal affections, &c &c

This, we know, will appear incredible, but we have letters from physicians and surgeons from all parts of the United States informing us of extraordinary cures. R Van Buskirk Esq one of the most respectable druggists in Newark N J informs us that he can refer to more than 150 cases in that place alone There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character It is the best medicine for the preventative of disease known It undoubtedly saved the lives of more than

5,000 CHILDREN THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season. It has never been known to injure in the least the most delicate child

RHEUMATISM

This Sarsaparilla is used with the most perfect success in Rheumatic complaints however severe or chronic The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when it is limbs and bones are dreadfully swollen

☞ Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford Conn The following is an extract of a letter received from him viz

Dr Townsend—I have used one bottle of your Sarsaparilla, and I find it to excel at in its effects upon a chronic rheumatic pain to which I am subject from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr Seymour I have conversed with two of our principal physicians and recommended your Sarsaparilla SETH TERRY

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption Liver Complaint, Colds, Catarrh, Coughs Asthma Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats Difficult or Profuse Expectoration, Pain in the Side, &c, have been and can be cured

Dr Townsend—Dear Sir Nearly twenty years ago I took a violent cold which settled on my lungs and affected me severely, indeed, finally it became a constant hacking cough, but not so severe as to prevent me from attending to my business Within the last five years it increased on me gradually At last I became reduced—I breathed with difficulty, and raised with my cough much bad matter and for the last nine months previous to using your Sarsaparilla had long lit night sweats, indeed, my friends and myself supposed that I would die with the Consumption, but I have the happiness to inform you that, to my surprise, after using three bottles of your Sarsaparilla, I find my health restored I relapsed me gradually, and I am now enjoying much better health than I have before in 26 years I had almost entirely lost my speech which is so returned. You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who six three years old, had a very bad cough the whole of last Winter We became very much alarmed on her account. While using the medicine I gave her some of it and it soon entirely relieved her, as well as myself, and she is well now, and hearty, is my child I ever saw She was also full of little blotches, it took them away, and her skin is smooth and fair now, and I am satisfied she received no harm but good from using your excellent medicine

GIRLS, READ THIS

You who have pale complexions, dull eyes, blotches on the face, rough skin, and are "out of sorts" use a bottle or two of Dr Townsend's Sarsaparilla It will release your blood remove the freckles and blotches, and give you animation, sparkling eyes, good spirits, and beautiful complexion—all of which are of immense value to unmarried ladies

GREAT FEMALE MEDICINE

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for the great Consumption, Barrenness, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent causes or causes produced by imprudence, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame Persons subject to weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervousness of the female frame, which is the great cause of barrenness

It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring

Dr Townsend My wife being greatly distressed by weakness and general debility, and suffering continually the pains and sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures and also having it recommended for such cases we have procured Lobinstand whole of your Extract of Sarsaparilla, and followed the directions you gave me, In a short period it removed her complaints and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public. TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "the time of life," should neglect to take it, as it is a certain preventative for one of the numerous and horrible diseases to which females are subject at this time of life This period may be delayed for several years by using this medicine Nor is it less valuable to those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all of the delicate diseases to which women are subject It purges the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far as temporarily lasting the system so to produce a subsequent relaxation—which is the cause of most medicines taken for female weakness and disease

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood Three persons cured in one house is unprecedented

THREE CHILDREN

Dr. Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were affected very severely with bad sores have taken some four bottles, it took them away, for which I feel myself under deep obligation. Yours respectfully,

ISAAC W CRAIN, 106 Wooster-st.

Rahway, Jan 23, 1847

A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the good Sarsaparilla I have continued taking it, and find that I improve every day I believe that it saved my life, and would not be without it under any consideration G. Patent Mill Wheels!

Timbey's Patent
Two Vent Cast Iron Water Wheels,
—FOR—
SAW MILLS,
Invented by T. R. Timbey of Cato N. Y.

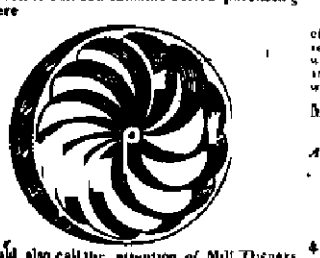
THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them with the same head and quantity of water supplied to possessing and combining *more Strength and speed*, and giving a *more uniform and Steady Motion* in and out of the cut (and therefore not liable to break cranks) and will also *run longer* and *Saw more Lumber* under a low head than any other Wheel in use

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the aperture larger and allows the "draft stuff" to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere



We would also call the attention of Mill Owners and Operators to

Valentine's Patent
Reversing Centrifugal Water Wheel,
—FOR—
"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills and are capable of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts now used

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by HIRAM A. BEARD, Esq *Civil Engineer*,—Low all Mass who is well known as one of the most Scientific and experienced practical Engineers in this country

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel so that it has no downward pressure upon the Wheel which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost

"This Wheel is adapted to low as well as high heads of water, and will run as well as back water as out of it, providing the head rises in a freshet as fast as the back water But a Wheel with the jets rightly guaged for a high head will not answer for a low one, and vice versa for as the head increases the width of the jets should be proportionally decreased, so that the water may not issue to waste, and not give its best effect to the Wheel

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, it is less liable to need repairs, easily accessible when they are needed costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop—Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel
